DETAILED ACTION

1. Applicant's election of group I in Paper No. 10 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 31, 36-38, 40-47, 55 are searched and examined for merits. Claims 48-51, 54 have been withdrawn from consideration as being non-elected. It is noted that 8-coumarinyl-pyridines have other uses, such as being coronary vasodilators as noted in FR 2387956.

Furthermore, the method claims are of different scope from the compounds (the amended claim 31 appears to omit the proviso by mistake).

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 31, 36, 40, 43-46, 55 are rejected under 35 U.S.C. 102(b) as being anticipated by CA 95:203793, CA 92:58620.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 31, 36, 40, 43-46, 55 are rejected under 35 U.S.C. 103(a) as being unpatentable over CA 95:203793, CA 92:58620.

Art Unit: 1625

Note the above 102 rejection. It is noted that isomers and /or homologs of known compounds are suggested for the art uses.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 36, 40, 43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:

1. Claim 36 should read $N(R^6)(R^8)$.
2. Claim 40 should read R^{10} .
3. Claim 43, OCH_2R^1 does not have antecedent basis.
4. Claim 43, R_1 should read R^1 .

8. Claims 37, 38, 41, 42, 47 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
